Q2 2022

## New gComply Go Live Date - 2 May 2022

We're excited to share that from 2 May 2022 our valued users will find our powerful regulatory library now also features:

- Daily updates to regulatory data in gComply increasing compliance confidence
- Weekly updates to regulatory data in gComply Plus with the goal of providing daily updates by year end
- User interface improvements creating a more intuitive user experience

To keep things easy for you, we haven't changed how or where you login. And, if you ever need assistance, we provide personalized ticketing support via Zendesk, which also includes a searchable knowledge base.

To make sure our users are able to take full advantage of the improvements, we are hosting a demonstration for our existing gComply clients.

We will run two webinars to accommodate our global customers.

Tuesday, 10 May, 8PM – 9PM AM (U.S. Eastern Time)

Wednesday, 11 May, 9AM – 10AM (U.S. Eastern Time)

**Register for the one that works with your schedule today! [Sign up here.](#)**

## Expert Generated Packaging Sustainability Report

With regulatory bodies and consumers increasing their interest in packaging, staying up-to-date with the latest compliance regulations is critical to both food manufacturers and packers.

At Decernis, our team of packaging and sustainability subject matter experts tracks new and updated regulations and provides interpretation. The results of their work are published into reports focused on specific topics like food contact safety and sustainability.

Our Packaging and Sustainability Report clients say that subscribing is like adding a part-time team member. The Report features content on recycling, sustainability, safety, as well as the circular economy and environmental impacts.

As a valued client we'd like to help you have the most productive year yet by sharing a free global Packaging and Sustainability Report so you can see the value it can add to your business.
